While not as classic as his Roman series, Sears book is one of the few out there actually useful in helping folks identify ancient Greek coins.

In need of a modern feel. USD wouldn't hurt. Why not more pics..?

Another good basic classic reference book.

I like the in depth history lesson with each coin.

great book, all books by Sear are very helpful

My husband has just begun collecting Greek coins and this book provided him with a wealth of knowledge. Wish it was still in print!

Wish were combined with sears book number two, as ancient coin collecting is generally focussed all over the ancient greek and roman world.

I had received very good condition book. Many thanks. From Japan.
