If you are looking for difficult, challenging, hard to break Sudoku puzzles for get this book. It claims to be challenging but the puzzles can be quickly completed without much note taking or brain wracking. If you really want a truly difficult Sudoku book, get the Nasty Sudoku puzzles books one through four. Each book gets harder and even book one will keep you working hard at the answer. I have been through the Nasty Sudoku books twice and working on my third time and have yet been able to complete every puzzle. These 4 books are the only Sudoku books I have found to be truly difficult and a challenge.. Not even the "Mensa" books are relatively easy.

Great book!

Very good book, like the 400 puzzles rather than typical 200. I only do difficult puzzles, this is a good book but I was able to do them with pen - so it's not as challenging as it could be.

These puzzles are not so challenging, especially if you Sudoku frequently.

Really very good, just wish there was more room for making notes.

A great, no-frills book of challenging puzzles.

I bought this for my husband and he is very pleased with it!

Going to take a while to finish all 400! Really enjoying them.
