# National Park Quarter Foam Map

## Synopsis

Display your National Park Quarter collection in this educational collector's map. Special "push-fit" foam makes it easy to insert your coins, openings for all 56 National Park quarters. Big 13.2" x 39.75" Foam construction is inert and safe for your coins. The National Park Quarters Coin Act of 2008 requires quarters, beginning in 2010, to have designs on the reverse depicting one national site in each state, the District of Columbia, and the five territories of the United States. Fifty-six (56) different quarters will complete the program from 2010 through 2021. Color.

## Customer Reviews

Very nicely designed and just like the States Quarter Map here-

<http://www..com/gp/product/0794821944> and we bought both to do as a homeschool/family project with our boys (each will get to keep one). They are the same exact size and, while the actual colors and pictures on it are different, they look very much like each other- which is what I was hoping for. They also have a nice little fold over tab to keep them closed. This one's is made with Velcro to hold the closure (vs magnet on the other).

We were disappointed that the collector map didn't include the special mint San Francisco quarter as indicated online. There was no indication that the quarter would not be included and the plastic over where it would have sat was torn open. Otherwise, the book works well for the collection. We like the colors and the way it's displayed so we can tell which ones haven't been minted yet! My son is becoming quite the collector!

This map is very awesome, very colorful and easy to get the quarters in and out. Be careful when putting the quarters in the slots, make sure the map is on a solid surface because I kind of bent my map from trying to get the quarters in the slot. Overall I love the map, it is a good size, light weight, and has a Velcro closure on the side.

The book is great! Maybe a little too big to be conveniently moved around or stored if you don't have much space, but the print is very clear and well-organized and the colors were vibrant! The quarters fit extremely well and I haven't had to worry about them falling out (like I have had with other coin collection booklets). It's sturdy and beautiful!

I am delighted! My book arrived this Monday morning (and I ordered it Saturday afternoon). It is exactly what I was looking for. The tri-fold book has a map of the U.S. with spaces to insert quarters for all the states, plus D.C. and territories. There is a guide telling which quarter goes where. It even included a shiny new quarter to insert immediately. I highly recommend this for the average person who just wants something to hold those quarters you've been saving, and doesn't care which mint it came from. I'm going to order one for my granddaughter, too.

I like this brand of quarter holder since it is very large and colorful. It is easy to read and has some information regarding the parks. The quarters stay in well without falling out.

Not flimsy. Contains some added information.

We like this - and it's nice quality -- but it's sort of big (tall) and hard to put on the shelf. If it had come in a size just 2 inches shorter - that would have been perfect (but the description did actually state the measurements - so I did know it was tall). Overall very happy - we are excited to look for quarters to fill the slots.
