1968 Plymouth Road Runner: A Rats To Riches Restoration (Volume 2)

Synopsis

With a combination of low price and high performance, Plymouth's Road Runner helped define the budget muscle car category when it was introduced for the 1968 model year, spawning several imitators. While Road Runners equipped with the 426 Hemi and the 440 Six-Pack get most of the attention, they represented just a small portion of overall production. The vast majority of Road Runners came equipped with the 383 V8. This story, which first appeared in *Musclecar Enthusiast* magazine, documents a reference-quality restoration that literally went from "Rats to Riches" with photos that illustrate one owner's perseverance.

Customer Reviews

Just a nice restored 1968 roadrunner picture book, that's it. only 32 pages for price of what 12 bucks?! NOT worth it! This again like many other books, failed to show it's authenticity (no showing of fender tag or broadcast sheet) and anything worth showing for needed enthusiasts like me needed information for restoration or originality. This roadrunner apparently is an highly optional car but nothing shows it's proof of it. The owners did a nice job of restoring it, but again its a picture book, nothing more, for me I give them an F.

The size of the book was ridiculous. I was totally disappointed with it, and wasted my money.

Wouldn't ever recommend this.
