The Real Book - Volume II: Bb Edition (Real Books (Hal Leonard))

Synopsis

(Fake Book). The Real Books are the best-selling jazz books of all time. Since the 1970s, musicians have trusted these volumes to get them through every gig, night after night. The problem is that the books were illegally produced and distributed without any copyrights or royalties paid to the master composers who created these musical canons. Hal Leonard is very proud to present the first legitimate and legal editions of these books ever produced. You won't even notice the difference...the covers look the same, the engravings look the same, the songlist is nearly identical, and the price remains fair even on a musician's salary! But every conscientious musician will appreciate that these books are now produced legally and ethically, benefitting the songwriters that we owe for some of the greatest music ever written! 400 songs, including: Air Mail Special * Birdland * Bye Bye Blackbird * Caravan * Doxy * Fly Me to the Moon (In Other Words) * Georgia * Girl Talk * In Walked Bud * I Remember You * I Thought About You * The Jody Grind * Just the Way You Are * Killer Joe * Little Sunflower * Mercy, Mercy, Mercy * Moanin' * The Nearness of You * Now's the Time * Old Devil Moon * Phase Dance * St. Thomas * Speak Low * Stardust * Tangerine * Tenor Madness * Watch What Happens * Whisper Not * Willow Weep for Me * Yardbird Suite * and more. Editions also available in C, E-flat, and Bass Clef. Looking for a particular song? Check out the Real Book Songfinder [here](#).

fine

The Real Book collection is great for solo or small combo use. I have four of these books and use them all the time with my trio. I would offer only one suggestion - include the recommended tempo for each chart and identify the tempo such as rhumba ,swing ,etc. What is - med slow or med jazz. Great books at a great price.

More my fault than theirs. Why would you want this on a kindle? It works fine. If you can gig from your Kindle it's a great product. It would be a much better product if it were just an electronic file, pdf

The second book purchased for my daughter Carls, a budding Jazz performer and 2nd year music student at University of Cape Town. A wonderful collection of old favourites and crowd pleasers.

A must have for the jazz musician

The book is good, with clean looking pages but there is a major problem in it. The TOC is messed up. Every song title I clicked on sent me to the same song. "Shine." While "Shine" is a good song, I don't have time in a jam session or gig to page down alphabetically to a called tune. I need to pull a tune up quick and the requires a TOC that works correctly. If they fix the problem and send the update to my Kindle, I'll give it five stars but for now it only gets two.

Those interested in playing some classic jazz, either professionally or just for fun, need to get this real book series. I have two and although I do not use them in a professional setting, I use them to keep my lip up and enjoy the music written by many of the great jazz composers of all times.

If you want to play jazz, "The real book" series or the fake books, are usually the place you start. Although transcribing tunes you like would be the better approach, this is probably a nice help to get

you started.
