This is a fun book. We purchased it for our grandson's 3rd birthday. We also gave him a Duplo set with a train that is numbered to 10. We gave it to him at his party last night. He had me read him the

book and he really enjoyed it. Each 2 page spread was good reading and lots to see on the page.

My 2 1/2 year old loves it and it's helped him with his numbers. We love the Construction Site and Steam Train books too, so this was an easy purchase!

I purchased this book for my two year old son. He loves it, we have to read it every night before bed, often several times. Great rhyming and good pictures.

This book makes learning numbers fun and joyful! My little one wants me to read it over and over again. The flow of the story really makes this book!

A great extension for Thomas the Train fans. Not Thomas, but brings the number system into an interesting topic.

Our Greatgrandson loved it! I was brought up with steam trains so that makes it extra fun!

My 20 month old loves this book. He loves the animals and counting each one and talking about what activities they are doing on each page.

My son likes it but its a bit limited in narrative scope and telling the tale...
