Pretty Little Liars #2: Flawless

Synopsis

#1 New York Times bestselling series The second book in the #1 New York Times bestselling series that inspired the hit ABC Family TV show *Pretty Little Liars*. In ultra-exclusive Rosewood, Pennsylvania, four beautiful girls are hiding very ugly secrets. Spencer covets her sister's boyfriend. Aria is fantasizing about her gorgeous young English teacher. Emily is infatuated with the new girl at school. And Hanna is using some ugly tricks to stay amazingly beautiful. But their most horrible secret is something so scandalous it could destroy their perfect little lives. And someone named *ææ* is threatening to do just that. Full of unexpected twists and shocking revelations, *Flawless* is the second book in New York Times bestselling author Sara Shepard's compelling *Pretty Little Liars* series. *Â*

Customer Reviews

Things escalate quickly in this book, and I love it. A lets some secrets slip, so this book is filled with teenage turmoil and all that good stuff. The Jenna Thing is explained in this book as well. The

characters shifted a bit in my opinion. I started to feel for Hanna in this book. The reasons behind her vanity are explained and it makes her a little easier to relate to I think. Emily is very fickle in this book. She will do just about anything for some praise and has no backbone. Spencer and Aria are like little high school stalkers. Seriously. They go pretty nuts over guys and it's just too implausible. I wasn't crazy about the ending, although it was a nice shocking moment. And they got rid of a good character, too, but what can you do? I feel that the ages in this book aren't quite right. They seem too young for a lot of this stuff to happen. It makes sense that the TV show changed their ages when Ali went missing from 13 to 15 due to the content, because it's just too unbelievable.

Sara Shepard does not disappoint! This book is another great read if you like the Pretty Little Liars books! I would highly recommend this series to anyone (tween and up) who likes mystery and action. Each time I read one of the books in this series I can't put it down! Awesome series!

I decided to read the book after I got into the show. WOW there are a LOT of differences. When they say the show is "loosely" based on the books they mean hanging by a thread. I like the book a lot, but sometimes it gets repetitive and there aren't too many clues as to who A actually is.

Totally worth the almost 9 bucks that I spent on this book! I'm usually a bargain shopper when it comes to books, especially series- I'll only buy while they are on sale as a series set (usually) - but after breaking down and watching a couple PLL episodes on Netflix AND THEN finding out there's a book series to match them, I was sold. The ending of this book in the series in particular totally threw me for a loop. I actually went back a couple chapters and read it again because it was such a thriller, the second time just as good as the first! This is the YA reader coming out in me. I used to be an avid YA reader but as I got older the books got less mature for me and I wasn't as interested. These girls aren't about sex, drugs, and all that madness and Shepards writing is definitely PG rated but they are still great books- which makes for a great author (in my eyes).

There is so much more to the book than the show. But things are so twisted in the book. I can't wait to move onto the next.

This started out a little slow for me but it picked up quickly and I think it was a perfect sequel, giving readers more insight on the mysterious events and people we were introduced to in the first book, while still keeping everything interesting and suspenseful. We are starting to see more into the

minds of each girl as "A" continues to harass and taunt them with knowledge of their secrets, old and new. More and more, "A" is becoming their lives as they make excuses for why they must keep their secrets to themselves instead of seek help. It's getting dark, folks! And I love it. The story and the characters manage to be so relatable despite the spooky undertones that I'm sure most girls didn't grow up with. Love these characters, Hanna and Aria especially. Overall, a very satisfying book that of course left you wanting for more. Onto #3!

This book is just as adventurous as the first! While Spencer, Aria, Emily, and Hannah and trying to find Allison's killer they are being blackmailed in the worst ways possible. It's almost like someone is watching their every move. I enjoyed the book a lot, there was only a few brief moments when the pace slowed. But other than that the characters are getting more and more developed as the books move on. I would recommend this book to anyone who likes some high school drama mixed with a mystery who's done it?

Great author, knows how to keep the attention! But watching the tv series is totally different, and for a visual person, can make these books hard to keep up with!
