Customer Reviews

James Fizzell has more than 50 years of hands-on horticultural experience, making him the source other experts turn to with their toughest turf, vegetable, landscape, and plant problems. Fizzell is well known to midwest gardeners through numerous appearances on radio and TV and from articles for neighborhood weekly newspapers. Jim has written more than twelve books for midwest gardeners for Cool Springs Press.

This book is a good reference for anyone who is interested in getting into gardening who has an ounce of science in their soul. Focusing on Indiana, the plants chosen for review, and weather information are specific to that region, however this book's methods could apply to gardening anywhere. Despite being very light on images, this book made it into my top 2-3 gardening books after borrowing 15+ books from my local library.

A great help for a novice Indiana herb grower.

Good book.
