Customer Reviews

This is simply a single PDF file of the catalog. It is in black and white (no color), and it is not searchable. The table of contents is clickable, which is good, so you can click to your country of interest. A bit disappointed. The publisher has missed a tremendous opportunity to create a usable tool for active banknote collectors and traders.

Another decent catalog. Its pretty useful, but I still can't give 5 stars because it's all in black and white, and some of the pictures are a little hard to make out. As I said with the other volume, it would be nice if they split this up into a few different books, and printed it in color. I wouldn't mind paying a little more for something that was printed in that way. I also found a lot of entries in this catalog that didn't have pictures, which was somewhat frustrating.

A good and detail full book With a the informations I need "the price is not the most importen".... pictures and text is absolute morethe Thing fore Me

The banknotes picture not coloured. ..black and white only

This is highly recommended reference book for any banknote collector. I enjoy going through different countries in the book and check their banknotes prices.

Good

excellent

Excellent catalog to have
