Many years ago, when these songs were popular, I was a cocktail pianist who played them at hotels, resorts, and the like. I can still play them in the rather easy-going style I favored then. I bought this collection because I love Nelson Riddle's arrangements. I own the recordings he made with Linda Ronstadt of these songs and wanted to learn more about how he got those wonderful sounds. Well, now I know, and I'm happy to know, which explains my 5-star rating. A warning, though. These arrangements were meant for orchestra and are VERY difficult to play on the piano, sort of like Liszt's arrangements of Wagnerian operas. I don't play in public any more, but if I did I might add a few new harmonies to the arrangements I am accustomed to, but anything more would be beyond my technique. For me, then, these are more study scores than playable arrangements; as study scores, they are just what I wanted.

This collection of songs by Linda Ronstadt is great. I am taking group vocal lessons from a jazz singer, and we each do two solos for a performance. I have been a Ronstadt fan for many, many

years and decided to do two of the songs she recorded that are included in this book.

love it~

This book is wonderful. Nice large pages of sheet music and guitar chords.

The music is well written and done in an excellent key for me to sing. I am thrilled with the printed music book and feel lucky to have been able to find it a buy it. Thanks!

Lovely arrangements of classic pieces!

Very well done!

I thought I was buying the CD not sheet music which I have no use for
