Customer Reviews

I've been using these coin books for most of my life. In that time, they have hardly changed at all. The coins are hard to push into the holes, but it's supposed to be this way. Put the book on a clean hard surface, like a table or counter top, and PUSH hard. I use a lighter to push them in once I've got them in as far as they'll go with my hand. They are designed this way to keep them from falling out. The backside of the slot is only covered by a thin piece of paper that makes up the book's cover. This isn't an issue if you put the coins in correctly. If you do it incorrectly, you run the risk of pushing through the paper backing of the slot. I've used these books for years, and have had dozens of them, and never had a problem. One thing to keep in mind: once the coin is in, you should leave it there. If you put in a coin, and take it out, it won't hold another coin nearly as well. If you get one that might not be a permanent, and think you'll replace it down the road, don't put it in just yet. Other than that, these books are a great value. My family loves them, and it really does give us all something to do as a pastime.

The coins fit in this snugly and they are easy to snap into place. This is great for a novice collector

Very well made book for collecting. I'm very happy to have a book of this quality.

Was exactly as listed. Arrived quickly.

it is what it is... a coin book

It's A Coin Book
