## Brigands M.C. (CHERUB)

## Synopsis

A new member of CHERUB gets the chance to avenge the death of his family in the eleventh book of the CHERUB series, which Rick Riordan says has "a plenty of action." CHERUB agents are highly trained, extremely talented "and all under the age of seventeen. For official purposes, these agents do not exist. They are sent out on missions to spy on terrorists, hack into crucial documents, and gather intel on global threats" all without gadgets or weapons. It is an extremely dangerous job, but these agents have one crucial advantage: Adults never suspect that teens are spying on them. Dante Scott still has nightmares about the death of his family, brutally murdered by a biker gang. Then he is given the chance to become a member of CHERUB, and when he joins James and Lauren on a mission to infiltrate Brigands Motorcycle Club, he's ready to use everything he's learned to exact revenge on the people who killed his family.

This was a bday gift for my grandson who loves the series

Although I am sad that this is James' second last book, I loved the book. I love the start because it is unique portrayed a sense of fear for the harm of the main characters

Grandson Christmas gift. He loves the series. Thanks.

Excellent teen spy series. Any books that have my son up at night reading are good very worthwhile in my opinion. He loves the main character, the plots are engaging and has now read all the 12 books in the series -- we even ordered a few from the UK since they haven't been released in the United States yet. Highly recommend the whole series for boys 12-15.

Bought the series for my 16 year old nephew who generally doesn't read - he loved them, insisting that he get the full set to read. And he did. A great way to get boys reading.

this was a great book. it came much earlier than it was supposed to. the story was good. the ending that he writes (the concluding part) was a little short as if it was rushed, it lacked detail. but the book was still great. i was able to get it from the USA, normally only in the UK. great book.

Every book in this series has been great. My 2 grandsons have read all of them .

Every Cherub book is awesome. Recommend it to all book worms. This is such an awesome book and can't wait to read the next one. SHADOW WAVE!!!!
