"This science fiction/fantasy anthology delivers on its promise to reimagine the baddest fairy-tale baddies . . . Readers . . . will find entertainment within the pages, and the collection may also be useful for discussions about the differences between fantasy and science fiction." â "Kirkus Reviews

I ADORED this book which introduced me to 10 different authors who I will definitely continue to follow. This is an intensely creative collection of short stories that draw you into their invented worlds and take you away. Some funny, some downright scary and freaky, some deep in meaning and insight. I'm very impressed with all of these authors and I highly recommend this book. Something for everyone and what a great way to find the best authors of this genre.

"The Pendragon Crystal" by Kath Boyd Marsh was my favorite! But what a fun book, turning some of our fairytales upside down. What if those childhood villains weren't really the bad guys after all? I'm surprised this doesn't have more reviews.
