This is a good book. However, all 144 pages are identical to another hardcover book by the same author. The hardcover title is "Creating With Concrete." I'm not at all happy that I've bought two of the same. To me a DIFFERENT title and cover indicated a different book.

These 3 books by Sherri Warner Hunter were just a repeat of each other. They used the same photos and same write ups. It was a waste of money to purchase all three.

I have not had the time to start any of the projects but this book does have a lot more information, ideas and designs then expected. Very good deal for a reasonable price. I recommend.

I'd been to a concrete sculpting class and this book was mentioned. Once I got home I decided to

order it. This book has everything in it that we learned in class and then some. Basic, informational and filled with ideas to get you started on your sculpting journey!

I've looked through the book and she has designated which ones are more difficult, which are for beginners; I find that helpful. I've never worked with concrete before and it should be interesting. Plus she includes plenty of photos which I find necessary!

Great book, great instructions too!

as far as i have seen, there is no other book like this one.think of it; you can; with this excellent book, create your own sculptures and the neighbors will die of envy! they will think you came into an inheritance and can now afford to enlist a fine artist to grace your front lawn with art.or how about a knock-out hugh heavy deeply engraved wildly artistic planter? the whole neighborhood will be on you to do your magic for them. i have so many plans now that i yearned to do for years and never thought was possible to acomplish.the book is extremely well laid out. tons and tons of step by step pictures. and various formulas for concrete from the usual we are accustomed to; to some very malleable patty sculpture-friendly types of material. the way to structure figures; some very complex, is clearly laid out so that you will never again be able to say "oh, i could never do that".sherri hunter, i am in your debt!!!

Nice book with lots of good ideas!
