Mein Kampf: The New Ford Translation

Synopsis

For the first time in 65 years, a modern, easy to understand, truly complete and uncensored edition of Mein Kampf has been released which reveals more than any past translation. This hardcover book is also the first translation available in an English language audio format. Older translations altered passages, omitted passages, mistranslated Hitler's words, made some parts more sensational while concealing the true meaning in other parts of the book. If you have read one of these older translations of Mein Kampf, then you have not read the REAL Mein Kampf which is found only in the Ford Translation. Mein Kampf is often portrayed as nothing more than an Anti-Semitic work, however only 6% of it even talks about the Jews. The rest contains Hitler's ideas and beliefs for a greater nation plus his plan on how to accomplish that goal. He outlines his plans for not only world conquest, but the conquest of the universe. The majority of the work involves Hitler's discussion of the German people's difficult times after the First World War, his political theories and his organization of the Nazi Party, as well as many attacks against his enemies which makes it a very interesting and moving story. Mein Kampf offers an interesting interpretation of politics, people, and foreign policy matters. To characterize it as simply a racist work is to oversimplify its message. Germany did not follow Hitler because he was a racist, they followed him because he promised a great future, and Mein Kampf is where he promised that great future. This edition is the only accurate and complete English translation of Mein Kampf ever made. They have already tried... This is the only edition that was so thoroughly researched and verified that it required a separate book (Mein Kampf: A Translation Controversy) to document the changes and corrections made which prove the dynamic style of the Ford translation is superior to all past mechanical translations. Read the hardback version, then decide for yourself if he was a mad-man or a genius.

Customer Reviews

The angry ranting of an obscure, small-party politician, the first volume of *Mein Kampf* was virtually ignored when it was originally published in 1925. Likewise the second volume, which appeared in 1926. The book details Hitler's childhood, the "betrayal" of Germany in World War I, the desire for revenge against France, the need for lebensraum for the German people, and the means by which the National Socialist party can gain power. It also includes Hitler's racist agenda and his glorification of the "Aryan" race. The few outside the Nazi party who read it dismissed it as nonsense, not believing that anyone could--or would--carry out its radical, terrorist programs. As Hitler and the Nazis gained power, first party members and then the general public were pressured to buy the book. By the time Hitler became chancellor of the Third Reich in 1933, the book stood atop the German bestseller lists. Had the book been taken seriously when it was first published, perhaps the 20th century would have been very different. Beyond the anger, hatred, bigotry, and self-aggrandizing, *Mein Kampf* is saddled with tortured prose, meandering narrative, and tangled metaphors (one person was described as "a thorn in the eyes of venal officials"). That said, it is an incredibly important book. It is foolish to think that the Holocaust could not happen again, especially if World War II and its horrors are forgotten. As an .com reader has pointed out, "If you want to learn about why the Holocaust happened, you can't avoid reading the words of the man who was most responsible for it happening." *Mein Kampf*, therefore, must be read as a reminder that evil can all too easily grow. --Sunny Delaney --This text refers to the Hardcover edition.

The book *Mein Kampf: A Translation Controversy*(copyright 2009) has declared the Ford Translation of *Mein Kampf* to be the "...most accurate and easiest to understand version of *Mein Kampf* ever made." and went on to say "...that is why everyone should read it. It will change how you view politics and people." --*Mein Kampf: A Translation Controversy* ISBN 0977476081 --This text refers to an out of print or unavailable edition of this title.

I am not here to criticize or defend Hitler, but as a historian, professor, author and a journalist, I am here to release a factual, fair, unbiased and objective analysis of this book, yet first to make a few

points:I. In America we don't ban or censor information (like this book is banned in Germany), on the contrary we allow public to read Communist, Fascist, Islamic, Nazi and all other ideologies' texts, and then judge for themselves about these texts. This is called freedom of information in a democracy.II. If you avoid the public to read something, they will go to great extent to discover what it is that you avoid them to read. Every action causes a reaction, equal and to the same power, yet in the opposite direction.III. As much as Hitler is criticized and hated in the West, yet he is admired and adored in many parts of the world such as East Europe (Romania, Bulgaria, and Hungary), Middle East (Turkey, Iran, and many Arab nations) and other areas. So it all depends who you speak to!IV. Like it or not, Hitler is the architect and creator of a global political and economical ideology named National Socialism (Nazism) which any free thinker or curious person must study like he studies any other ideology.V. To study and comprehend Nazism you must study and comprehend Mein Kampf (My Struggle) which is basically the Nazi Doctrine written by Adolf Hitler.This book is the best source of information to do this task. I speak 5 languages. I first read Mein Kampf in Persian (back in Iran) and I last read it in English (this book). I am here to tell you that this book is the original English translation, the best translation and the most accurate translation of Mein Kampf available.If you are a history buff, student of history, political junkie, information junkie, scholar or just a enthusiastic reader, then this is the most accurate and unbiased (pro or against) version of Mein Kampf to read. This is the original (1939 version) of Mein Kampf in English translated by James Murphy (distinguished Irish translator) to be distributed in the Britain and the Western World. The translation is extremely well done. There is also a fine introduction by Bob Carruthers (Scottish historian, scholar, filmmaker and author) included. In addition it is illustrated with tons of original photos (some rare) from the 1939 publication.If you want to read Mein Kampf for the first time, brush up on it or read the accurate version, then this is for you. It is the republished copy of the best version available. This book is historically and philosophically valuable and worthy to study and to read. I recommend this book to all.

If you read this book with focus, objectivity, and equip yourself with the tools for critical thinking, you will gain much insight into the causes of these endless wars and social upheavals that plague the planet today.Good luck,

When this book was written, it was a one of a kind in attempting to coalesce contemporarily divergent political views effectively into a single movement. The result of the new political view/effort resulted in the Nazi party. You know what happened after that.Similarly, Saul Alinsky, has

paraphrased Hitler's ideas into a new view that nominally distances itself from Mein Kampf, but drives for an exactly similar result in this day and time. I think that it is a "Must Read" for modern peoples.

Well. I read for recreational purposes . The author of course is hated by all but it's still an important piece of literature for us to read . It's very interesting how he viewed the world.

A very interesting read. It gives some insight into the mind and thoughts of one of history's most infamous men. I feel it is a must read for everyone wishing to know more about the years leading up to the second world war.

The book is very informative in respect of having an insight into the subject's beliefs and values. I would recommend the book to anyone who has a genuine interest in world history.

I have read this lol

Must read for lovers of history
