I have one of these for my main residence in Colorado, and simply loved the detail that this small pamphlet gives, that I decided to have one when I visit Wisconsin in the summertime for vacations.

Great for the car or when hiking outdoors.

My grandson (12yrs) has become very interested in identifying birds since he loves helping me keep my feeders filled. I bought this for him to use at his home to help him name the birds now coming to his feeders. A very convenient guide to locate and identify. I'd recommend this for anyone wanting to name the birds.

great handy waterproof guide, takes a sharpie for personal notations.

Bought it when I moved to Wisconsin and always use it. We take it when we go camping or nature walks. It's a laminated fold open booklet so it fits anywhere.

Not worth the price. I thought it would have more birds, more information or something but it is handy if you want to put it in your pocket and take it with you. It takes up very little space.

Exactly as depicted.

It's just a laminated sheet of paper folded up with pictures of birds...not a "book" at all. Shipping was \$3.99 for actual postage of \$1.48....Bad Deal!! I'm very disappointed.
