Testimonial: Allana Baroni - Featured Contributor for [www.Oprah.com](http://www.Oprah.com) and author of 'Get Social' "Tony killed it! ## Customer Reviews

This book is beginning to get a little old and can use an update. Don't get me wrong, everyone will get actionable advice that can be put into use for every business but an update would be helpful, nonetheless. Tony guides you effortlessly through the process of creating your Social Media

Business presence. He guides you as you learn how to make your pages more informative and popular than those of your peers and competitors. Buy this book, put it into practice and watch your business grow.

Very simple and to the subject. Easy read that opened many unanswered questions to the way social media works today and how it can influence every business and create traffic, thus success. I am an old soul and never saw myself as being able to do too much online, but after reading Tony's book, I approached everything with ease and it turned into a pleasant experience, helping my company and my presence online. Thanks so much Tony! YN

Published in 2011, yet the information continues to be relevant. True, Google+ is out and there is little mention of Instagram; however, the Fab 5 (now 4) of Facebook, LinkedIn, YouTube and Twitter continue to be the big dawgs of social media. Tony provides some clear definition of the intent of each platform along with suggestions for best usage.

Tony is TOPS in his game at being a social agent and has taught many others as well! Thanks for the great ideas!

I sat in on one of Tony's sessions and it was fantastic. The book was an easy read with easy to follow instructions on how to improve my social media connections.

Attended one of Tony's seminars and bought this as a reference copy. Great Stuff...!

I know a lot about Social but this boom was helpful in solidifying my info and thinking. ALSO cleared up my wife's thinking that Social was not of value.

He drones on endlessly about why social media in general is so awesome but never provides a single strategy or tactic beyond "like people's comments and send out friend requests". I'm sure he's amazing in his own business, but this does not come close to teaching you how to do it yourself.
