29 Gifts: How A Month Of Giving Can Change Your Life

Synopsis

At age thirty-five, Cami Walker was burdened by an intensified struggle with multiple sclerosis, a chronic neurological disease that left her debilitated and depressed. Then she received an uncommon “prescriptionâ • from South African healer Mbali Creazzo: Give away 29 gifts in 29 days.29 Gifts is the insightful story of the author's life change as she embraces and reflects on the naturally reciprocal process of giving. Many of Walker's gifts were simple—a phone call, spare change, a Kleenex. Yet the acts were transformative. By Day 29, not only had Walker's health and happiness improved, but she had created a worldwide giving movement. 29 Gifts shows how a simple, daily practice of altruism can dramatically alter your outlook on the world.

Just a month after her wedding, 31-year-old Walker was diagnosed with multiple sclerosis; two years later, she was bitter, isolated, and addicted to both pain medication and self-pity. In need of help beyond drug detox, Cami takes the advice of a South African healer: give away something every day, for 29 days. Walker soon learns that being mindful of giving also means being open to gifts from others, and that gratefulness and mutual generosity is the key to a better, more rewarding life. Glimpses into Walker's day-to-day difficulties-work, family life, constant therapeutic treatment and addiction recovery among them-crop up among the stories of her daily gifts, grounding the work (based on Walker's Web site) in personal details. But the meat, an admirable reworking of The Secret (in that it should actually help someone, at least gift recipients), speaks largely to those

already initiated into the cult of positivity. Copyright © Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. --This text refers to an out of print or unavailable edition of this title.

This book is in the midst of actually changing my life for the better! After reading this, I decided to do the "29 Gifts in 29 Days". I'm on Day 15 now, and I can honestly say that when I give someone (especially a stranger) a random gift it makes my whole day brighter! The book is based around this concept. Basically, the author got diagnosed with MS and was having a really difficult time with processing it, and it brought on her depression and it brought back an "overcome" addiction. A friend of hers Mbali "prescribed" a treatment of sorts, "Give 29 gifts in 29 Days", you must give from the heart and think about what you DO have instead of what you DON'T have. You'll have to read the book to see the outcome it had on her life. I highly recommend!

I really wanted to love this book and honestly it was an interesting read. I actually found the other

people's writing after Cami's to be more inspiriting. She assumes too much in the way of those who would participate in this journey to be New Age followers. I am agnostic so although I do appreciate theology it was too immersed in the ideology to be a comfortable read. As others have noted, some of her gifts seemed to be superficial, almost as if she was simply looking for something to fulfill the obligation of giving a gift that day. I think that took away from the meaning behind selflessness. I think as a memoir it read okay but I will not come back to this book as I will others even though I fully intend to continue pursuing mindfulness and giving.

This is a very candid gentle story about the power of giving. Walker was faced with a health crisis that caused her to open up to new ideas that, over a year's period of time, radically changed her life. The book explains the process and invites the reader to participate.

The excellent writing drew me into Cami's life from every perspective. I suffered with her through her illness. Appreciated all the extra information on MS. Since I was a caregiver for my husband who had Alzheimers, I could appreciate the stress on Cammie's husband and was thankful that she recognized it as well. My current spiritual path is religious science, science of mind so I can relate to the value of positive thinking and its healing effect, not only on physical conditions. Of course the best message was the change in perspective, in Attitude, in a way of life that now provided real happiness. During my 80 years of life I learned that message and have now started writing a book about the blessings. I hope to contact you for permission to quote your book to show that this spiritual truth spans all generations. Thanks Cami

I read Cami Walker's 29 Gifts in two sittings because it was hard to put down. Cami writes with stark and compelling honesty that grabbed me from the very first page. Her story is real and grounded yet deeply inspirational. While in the depths of despair as her life is crumbling from the effects of MS, a very wise woman, Mbali, gives Cami a simple but profound prescription to give away 29 gifts in 29 days. This is the story of how that prescription changed her life and inspired her to share it with others, growing into a world wide giving movement. Cami is a gifted writer with a beautiful message. I have already passed my copy of her book on to a friend.

Easy read. Helped me remember to appreciate how important it is to think of others, even if they are strangers. Also drove home the point of how doing small anonymous mitzvahs daily can not only help others, but can also be helpful to yourself.

Overall was interesting to read about the struggles experienced with a debilitating disease, but didn't find it motivational.

I had several moments of reflection reading this journey of Cami Walker. I started the challenge and then life interferences. Now I will start again. A new day, a new gift a new walk for me to walk.
