# Women And Politics In A Global World

## **Synopsis**

Women and Politics in a Global World, Third Edition, is the only text that offers a cross-national and comparative examination of the impact of women on politics--and the impact of politics on women. Sarah L. Henderson and Alana S. Jeydel carefully consider women's participation in institutionalized politics, social protest, and nationalist, fundamentalist, and revolutionary movements. To help make the material more accessible to students, the authors unify their discussions around four core areas:<sup>\*</sup> The assurance of women's safety and autonomy<sup>\*</sup> Reproductive rights and health care for mothers and children<sup>\*</sup> Equal access to employment and public resources<sup>\*</sup> Women's access to political institutions and positions of authority

"Relevant, detailed, and inclusive of women's perspectives and issues from a global vantage point. Both its breadth and depth render this text useful for upper-level undergraduate courses, allowing students to sufficiently explore the complexity of many issues facing women while simultaneously covering an extraordinary breadth of material."--Alisa Von Hagel, Northern Illinois University and Benedictine University"One of the most current, polished, and comprehensive textbooks that shines a spotlight on women's role and participation in politics."--Kristen Abatsis McHenry, University of Massachusetts Dartmouth"A sweeping and nuanced description of the many political and policy dimensions of women's lives in the world."--Karen M. Kedrowski, Winthrop University"The case studies discussed in several chapters are a great way to humanize the issues and show the breadth

of variation on the policies profiled."--Jody Neatherly-Castro, University of Nebraska Omaha

Sarah L. Henderson is Associate Professor of Political Science at Oregon State University. Alana S. Jeydel is Professor of Political Science at American River College.

Very comprehensive and useful overview and analyses of women's participation and impacts globally in multiple areas including institutional politics, reform social movements, revolutionary social movements, the worldwide economy, health issues, and combating sexual violence. Henderson and Jeydel's book provides much valuable information on the role of women in legislatures and executive positions, the effectiveness and accomplishments of women's movements, different ideological orientations among women activists, gender discrimination and inequality in the work force and the consequences of the variation of enabling assistance services such as early childhood care and education, maternal leave, and family allowances. This work increases understanding of gender discrimination and inequalities and how these phenomena are related to underlying social, cultural, economic and political forces. It provides an essential foundation for mobilization to bring about needed change.
