Private Equity In Action: Case Studies From Developed And Emerging Markets

Synopsis

Global Best Practice in Private Equity Investing Private Equity in Action takes you on a tour of the private equity investment world through a series of case studies written by INSEAD faculty and taught at the world's leading business schools. The book is an ideal complement to Mastering Private Equity and allows readers to apply core concepts to investment targets and portfolio companies in real-life settings. The 19 cases illustrate the managerial challenges and risk-reward dynamics common to private equity investment. The case studies in this book cover the full spectrum of private equity strategies, including: Carve-outs in the US semiconductor industry (LBO) Venture investing in the Indian wine industry (VC) Investing in SMEs in the Middle East Turnaround situations in both emerging and developed markets Written with leading private equity firms and their advisors and rigorously tested in INSEAD's MBA, EMBA and executive education programmes, each case makes for a compelling read. As one of the world's leading graduate business schools, INSEAD offers a global educational experience. The cases in this volume leverage its international reach, network and connections, particularly in emerging markets. Private Equity in Action is the companion to Mastering Private Equity: Transformation via Venture Capital, Minority Investments & Buyouts, a reference for students, investors, finance professionals and business owners looking to engage with private equity firms. From deal sourcing to exit, LBOs to responsible investing, operational value creation to risk management, Mastering Private Equity systematically covers all facets of the private equity life cycle.

Customer Reviews

Private equity (PE) certainly has no shortage of critics, having been referred to as "capitalism on steroids," its general partners (GPs) or fund managers called "locusts" and their preferred deal cycle as a "quick-flip." Attention is peaked when the media portray PE as a fast way to multiply invested capital by reducing jobs and overleveraging companies. It is time to clear the air, remove soundbite biases and set perceptions straight by showing how the industry removes inefficiencies and turns underperforming companies into healthier, more dynamic ones. This case book offers a selection of rich, real-life case studies that demonstrate the application of core PE concepts by providing a unique behind-the-scenes look into the investment practices of PE and VC funds. It helps students and executives comprehend the complex processes associated with investing in private companies, from start-up to mature businesses, and understand the inner workings of the PE model. While academic concepts build the necessary foundation, practical application and execution of these concepts are the critical link that lead to a successful outcome.

GLOBAL BEST PRACTICE IN PRIVATE EQUITY INVESTING Private Equity in Action takes you on a tour of the private equity investment world through a series of case studies written by INSEAD faculty and taught at the world's leading business schools. The book is an ideal complement to Mastering Private Equity and allows readers to apply core concepts to investment targets and portfolio companies in real-life settings. The 19 cases illustrate the managerial challenges and risk-reward dynamics common to private equity investment. The case studies in this book cover the full spectrum of private equity strategies, including: Carve-outs in the US semiconductor industry (LBO) Venture investing in the Indian wine industry (VC) Investing in SMEs in the Middle East Turnaround situations in both emerging and developed markets Written with leading private equity firms and their advisors and rigorously tested in INSEAD's MBA, EMBA and executive education programs, each case makes for a compelling read. Private Equity in Action is the companion to Mastering Private Equity: Transformation via Venture Capital, Minority Investments & Buyouts, a reference for students, investors, finance professionals and business owners looking to engage with private equity firms. From deal sourcing to exit, LBOs to responsible investing, operational value creation to risk management, Mastering Private Equity systematically covers all facets of the private equity life cycle. As one of the world's leading graduate business schools, INSEAD offers a global educational experience. The cases in this volume leverage its international reach, network and connections, particularly in emerging markets.

As someone is an avid reader in finance related books this is a well constructed book. I also loved the fact the author diversified the case studies and made it not solely US centralized, such as the Hilton buyout of Blackstone or RJR Nabisco of KKR.

As a companion to *Mastering Private Equity: Transformation via Venture Capital, Minority Investments and Buyouts* or as a stand-alone guide, *Private Equity in Action* is a must-read for anyone in the private equity / venture capital / buyout space. The variety of examples presented address all of the most common styles of investment, and in particular the authors do an excellent job of leveraging INSEAD's positioning in the developing world to include a number of case studies in emerging markets. Both volumes deserve a place on the reading list of all serious private equity practitioners.
