Customer Reviews

Kathie Seaverns is an artist, designer and instructor. She contributes to many stamping magazines as well as Memory Makers. She frequently teaches stamping workshops and does demonstrations for industry and consumer shows.

I am very happy with this book. It has beautiful card making ideas with complete instructions for their completion. It also has instructions for making a variety of gifts that use rubber stamps. I think the book is best for the card maker who likes to collect rubber stamps because every card requires at

least one stamp. The book is a pleasure to look at with its colorful photos. I wish I had time to make every card in it. I recommend the book highly!

I recently ordered this book and was very pleased with the content. Enjoyed the initial section of the book, although I probably knew most of it. Still, it is a great general refresher about rubber stamping. I appreciated the clear, concise directions and photos of the various card projects. Recommend this book to beginners and intermediate stampers alike.

The book was perfect, the price was unbelievably low and the book arrived within the time frame or before that was promised! The book presented some instructions for making greeting cards that I had never seen before. I love it!

Lots of photos and information in this book. Good techniques for rubber stamping. Im very happy with this book. I'd like to see more books like this one.

Great Book - Would recommend!

This book was informative but I would like to have more step by step instructions since I am new to the rubber stamping projects. But its ok not sorry that I purchased it.

I am relly into rubber stamping and this book has wonderful ideas for me. It is very detailed and organized. I have enjoyed first reading it and then putting the ideas into practice.

The stamps mentioned were obsolete, however the ideas were good - you can build on it.
