Customer Reviews

Can't beat free

This is a huge collection of pirate fact and fiction from e-artnow that is bound to satisfy aficionados of this genre. Yes, everything in it is in the public domain, and each title can thus be obtained individually for those who may desire to do so, but it sure is convenient to get so many exciting titles in a single download, thereafter to have all this pirate lore in one place whether on one's device or in cloud storage. Thankfully, given so much content, this bundle has an active TOC for main titles and subsequent ones for chapters and/or specific stories within them. Paragraphs are distinguished by traditional indentation, rather than by spacing, and the formatting is generally quite handsome throughout. Ebooks don't get much better than this. This collection of PIRATE TALES: 80+ NOVELS, etc., has 15,506 pages, but e-artnow has also issued another pirate collection of 10,943 pages titled DEAD MEN TELL NO TALES: 60+ PIRATE NOVELS, etc. Be aware that virtually everything in that smaller set is contained within this one -- but this one has 4,563 more pages consisting of additional nonfiction and a few more novels. In other words, if you are trying to decide between the two, this is the larger and better of them. The titles are all listed in the Kindle Store description. I found many favorites that I'm happy to now have assembled altogether in one place, but I also pleasantly discovered many that I knew about but have never read, and several that were quite "new" to me; I especially look forward to reading those. Looking over the list of titles, you will also likely spy many works you already own or have read, but I strongly suspect you, too, will find more than enough in this bundle to make it as worthwhile to you as it is to me. If I had to describe this collection in a single word, that word would be "FANTASTIC!"
