Customer Reviews

I loved this book from beginning to end. I couldn't put it down until I finished it. I can't wait for the next book from this author

This is a special story about a young lady who married a man she had not really known, he and his family members treated her badly abusing her physically as well as verbally. A young man had been in love with her for years , he was so shy that he had not told her. She had escaped so she could find safety with her brother. This duo of authors know how to keep you interested. A must read for those who enjoy historical western romance kindle books from at a special price.

This series deals with four sisters who inherited a ranch from their great grandfather. After moving from New Orleans to Manning Texas, they find that there is a stipulation to the will. In order to fully inherit the ranch, they each have to be married within six months of his death, and two months have already passed. Can they all be married by then, or will they end up losing the ranch. You must read all five books to find out.

I really enjoyed the conclusion to this series. It was short but I think it was my favorite of the five books. I liked Parker and wanted to know what his story was.

Another good book from this author. I love the characters in these stories. What this poor woman went thru is unreal. I recommend this series.

This book has an easy to follow plot and interesting characters. I recommend this book to all lovers of clean, historical romance novels.

A good story and the fifth book in this series about a young woman finally finding love and happiness and marriage

Great book and awesome series. Books can be read individually but I recommend reading in order. Awesome authors
