Beautiful pictures, but not all are included in the patterns sections...that's too bad.

Did not realize it was the same book I have the covers are different, I was thinking it was the 2nd book

This is a great book, with excellent patterns. The patterns are easily readable, and understandable. All tatters should own this book.

Some very wonderful "old" style edging and etc. Beautiful photos of some that there isn't any instructions for. But I can figure them out. I have done 2 items so far. The instruction are for using a shuttle but i needle tat.so I have to at times do it a little bit different way but it turns out the same effect. It have several very nice doilies that i wish to work on, very lacy and delicate. I am always very eager to learn even at 66yrs. Still going strong.

Just wonderful

Very happy with the book.

An excellent reference book for those who love old fashioned crafting. The work is beautiful and a joy to make.

I plan to incorporate tatting into my quilt. fast save shipping
