Customer Reviews

Eric Hall was born and raised in Maine and has lived in New York City, San Diego, Seattle and Tokyo. He is a full time mental health professional, tech enthusiast, amateur pilot, frequent traveler, soccer player and author. Eric loves to write and enjoys sharing his many passions with his readers!

Very little useful information for me. As an amature photographer I already knew more than the author. Does not provide important information such as why to use a neutral density filter for video on bright days to lengthen exposure time.

My son loved it and this has helped him get ideas for his photoshoots.

Not useful at all. I wouldn't even call it a book. It is more like a pamphlet with generic information in it.
