Miracle Cure

Synopsis

The master of medical suspense takes you to prestigious Boston Heart Institute, where some patients are dying to get well....After a troubled past, Dr. Brian Holbrook has been given a second chance to prove himself. At state-of-the-art Boston Heart Institute, he's been chosen to join the medical team testing a new miracle drug. The initial results are so promising that Brian pushes to get his father--who suffers from a dangerous heart condition--accepted into the study. But Brian is beginning to suspect his superiors are hiding something. Why are crucial records disappearing? Why did a patient making startling progress suddenly die? Is the miracle drug a prescription for death? The answers could cost Brian more than his career. For at Boston Heart Institute, knowing too much is the quickest way to the morgue. From the Paperback edition.

Customer Reviews

I carried my Kindle everywhere with me as I read this book. In the car, the media room, the breakfast table. That's how compelling a read it was. I didn't converse, or look out the car windows oryou get the idea. The rhythm of events is impulsive, the hospital setting fascinating, empathy

with our flawed hero right on the mark.

Palmer is an excellent author who weaves a fascinating story with just enough detail ...not too wordy. No profanity except for one or two expletives and I appreciate that...other authors, are you listening? Lots of action and twists abound. You won't be disappointed with this read or any other books by Mr. Palmer

This book was so well written. It keeps your attention from the first chapter. Medical intrigue thriller. Looking forward to the next one by Michael Palmer..

I really could not stop reading this book! Thank you Michael Palmer for great entertainment, action, and a character I was ted to root for throughout.

Interesting characters that are likeable and a fascinating story that is really not too unbelievable. Fast paced hospital drama with investigative intrigue.

I've always enjoyed Michael Palmers books. I was happy to find a book I had not read. I like the medical terms and how Palmer explains.

This book took a long time to get me excited about reading it. I almost put it down but that is against my reading rules. The ending was ok!

Well developed plot. It holds the readers attention to the last page. I enjoyed it so much that I didn't want the story to end..if you like medical mysteries this is definitely a 5 star read!
