## Customer Reviews

Andrew Mikolajski is an established and highly respected gardening expert. He edited the RHS Encyclopedia of Plants and Flowers and the RHS Encyclopedia of Gardening (both Dorling Kindersley), and he has contributed articles to virtually every major gardening magazine and specialist journal. His published works include: Garden Plants and Gardening Techniques; The Practical Encyclopedia of Garden Pests and Diseases (both Southwater); and The Busy Gardener's Guide (Time Life).

I guess you get what you pay for. This is a thin book with some hostas identified, but certainly not what I was looking for. Too many pages on how to plant and how to thin etc. Since this book was more recently published, I had hoped for pictures and knowledge about some of the newer hostas. Not here. It was not a good buy for me. If you really don't know anything about gardening in shade, and are complete novice at hostas, then this is a nice little book at a cheap price to get you started.

A book for Hostas lovers. Nice pictures.

Fabulous

This is a very nice book, but a bit overpriced for its length (64 pages including the index).

An excellent primer about hosta. Beautiful pictures and clear, concise descriptions. Just what I wanted, although it may be too basic for some hosta lovers.

Very helpful book. Might be the only one I need.

A short book, but gives some helpful hints on planting and also identifies the more common commercial types.

a thorough and so far complete reference
