A YALSA Quick Pick Top Ten Pick for Reluctant Readers for 2012.

Another great (hardcover) book about the Comic Book and Movie world of Super Heroes and the mythological tales from DC. As a kid I loved both DC and MARVEL equally. They both had incredible artwork and an ever growing cast and stories that ultimately created a far more complex paradigm than the Ancient Greeks and Roman; Nordic; Egyptian..... etc. I love this book because it gives specific information on hundreds of characters (not just Superman and Batman). Although

both of these guys are still the greatest. But it's reassuring to me to read and view page after page of beings that are my size and larger! I mean 6'6" 300 pounds is the average size in this world vs. (well let's just say that I was 6'2" 220 pounds in 4th grade...); Even my diapers were 5XL!!! There are incredible characters of all sizes and both male and female and unknown...If you want to relive the old days or update the old brain; maybe get cool information on new movie superheroes or just enjoy my favorite kind of book: mostly amazing art and super powers along with great weapons and some unique outfits?!?Really enjoyable and fun.

Pros - Great artwork, easy to read as lettering is large and each character has a full page entry. Good for a really basic introduction of the main DC comic book characters.Cons - Limited number of characters. I bought the Marvel Encyclopedia for a couple dollars more and it has twice the pages and lists hundreds of more entries.The print is smaller and puts more characters per page with much more detail in the Marvel Encyclopedia but I would prefer more information and less picture.

Great quality hard cover book, beautiful vibrant art work inside, fun comic facts. My kids gonna love it!

My 9-yr-old nephew really liked it! The colors are vibrant and the book is made with high-quality materials. The information about each character is informative without being overwhelming for a young DC Comics fan.

Just as good as you want it to be. Love the quality and is very entertaining overall.

AMAZING!!!! so much info on the major players, the minor players. Very good read and I hope to get more of them.

My order met my expectations. My order will add to my book collection. I was very pleased with my order.

Only gave it a 3 because it lacks the power ranking section like the Marvel one has.Great book for my children 8 and 5 (and me:)). Inspires them to read, which is the most important thing these days. Have this one and the Marvel one. Both are great.Other than the multitude of discrepancies in the marvel one, I wish the dc book had the same power ranking section. Kids(and dads) love to

have the "who would win" discussions. An accurate, thought out and researched power ranking section would facilitate that. I recommend both books to anyone who likes superheroes. Hopefully DK will read some of these reviews and publish 2 new updated volumes. With more characters and accurate power ranking sections in both DC and Marvel books.
