## Synopsis

'Adrian has a unique gift for understanding drivers and racing cars. He is ultra competitive but never forgets to have fun. An immensely likeable man.' Damon Hill The world's foremost designer in Formula One, Adrian Newey OBE is arguably one of Britain's greatest engineers and this is his fascinating, powerful memoir. How to Build a Car explores the story of Adrian's unrivalled 35-year career in Formula One through the prism of the cars he has designed, the drivers he has worked alongside and the races in which he's been involved. A true engineering genius, even in adolescence Adrian's thoughts naturally emerged in shape and form - he began sketching his own car designs at the age of 12 and took a welding course in his school summer holidays. From his early career in IndyCar racing and on to his unparalleled success in Formula One, we learn in comprehensive, engaging and highly entertaining detail how a car actually works. Adrian has designed for the likes of Mario Andretti, Nigel Mansell, Alain Prost, Damon Hill, David Coulthard, Mika Hakkinen, Mark Webber and Sebastian Vettel, always with a shark-like purity of purpose: to make the car go faster. And while his career has been marked by unbelievable triumphs, there have also been deep tragedies; most notably Ayrton Senna's death during his time at Williams in 1994. Beautifully illustrated with never-before-seen drawings, How to Build a Car encapsulates, through Adrian's remarkable life story, precisely what makes Formula One so thrilling - its potential for the total synchronicity of man and machine, the perfect combination of style, efficiency and speed.

## Book Information

Hardcover: 400 pages

## Customer Reviews

'The greatest Formula One designer of his - or any other - age.' Sunday Times 'Newey has a

legitimate claim on the title of "Britain's greatest living engineer".' Daily Telegraph `Adrian Newey has created more winners than all the super-brain computers in Formula One put together.' The Times `Creative genius... the leading Formula One designer of his generation.' Guardian `The most accomplished man in the world's most glamorous sport... The Michelangelo of motorsport.' New Yorker

Adrian Newey OBE is arguably the greatest car designer in the history of Formula One. Newey has worked in both Formula One and IndyCar racing as an immensely successful race engineer, aerodynamicist, designer and technical director. After designing championship-winning Formula One cars for Williams F1 and McLaren, Newey moved to Red Bull Racing in 2007, where he is currently Red Bull Racing's Chief Technical Officer. He has won 10 Formula One Constructors' titles (more than any other designer), helping some of the world's most famous drivers to Drivers' championship wins, including over 150 Grands Prix.
