It was physically missing the first 4 pages, but showed little signs of wear beyond that.

Gave as a gift he liked it

Great detailed guide!

My 11 year old daughter is a huge fan of all the Pokemon DS games and would never be without a guide for each game. I think it just helps her understand the game better, saves a lot of frustration and just provides interesting insight into the game. If you have a semi-serious to serious gamer, spend the few extra bucks for the guide. They will love the game even more if you do.

Long before we had kids my husband and I started playing the Pok  mon Game Boy games, we discovered that with an open mind even adults can have a blast collecting Pok  mon creatures and training them. Battling even helps with stress as you fight your troubles away. 10 years later and we are still playing and just purchased the DS Pokemon Platinum. This particular game is very different from the others in the series, in this version you don't actually collect the Pok  mon instead you lasso them and get them to help you with specific tasks and to solve puzzles. The game is very challenging and no two jobs are the same. If you are a Pok  mon fan you should give this one a shot especially if you don't like the repetitiveness of the other games in the series. Liz Calamusa[...]. Custom Cakes and Beyond Treats for people and their pets - all freshly made to order and with no unrecognizable ingredients :)

Book came in okay condition; got it used. The posters were torn out, though, so a slight disappointment on that, though the person whom I got it for didn't seem to mind.

Grandson says book just what he wanted for Christmas so I am Happy with it. Company shipped as promised and I will deal with them again.

Product came on time and as promised. Would do business again with this vendor if need ever arose.
