Aztec Designs Coloring Book (Dover Design Coloring Books)

Synopsis

Rich in symbolism, the art of the Aztecs offers compelling glimpses into a vanished civilization. This book â ª a glorious gallery of authentic designs from an ancient Mesoamerican societyâ ª presents 30 meticulous re-creations of a vibrant culture's traditional designs. Derived from ceramics, statues, weapons, books, and other priceless artifacts, the images portray gods, rulers, warriors,â and animals, plus secular and sacred activities.â

Book Information

Age Range: 6 - 11 years

Grade Level: 1 - 5

Customer Reviews

Bought this for my grandma who is losing some cognitive functions. This company has a whole series of coloring books for adults. She LOVES them. They have nice little stories at the bottom and the scenes are interesting enough to keep her attention. I sent these books with some nice new colored pencils and she has really taken to them! Coloring and doodling can be quite therapeutic and meditative. She also enjoys word search puzzles but this is a nice change of pace, and especially nice when her mind isn't working as well or she isn't feeling well. The whole series of books is highly recommended for senior citizens, anyone who is bedridden, or those who like doodling while on the phone. Send your grandma a package -- she'll love them! :-)

I didn't read the description of this book and thought I was getting an Aztec design book in color, not

a coloring book. However, It is serving the unexpected purpose of allowing me, by coloring the book myself, to integrate the designs into my memory in a more intimate way than just gazing at pictures and hoping I will remember what they mean. Coloring is a meditative exercise, another plus of this book. It is inexpensive and I recommend it to anyone with interest in the culture of the Aztec people and their symbolic language expressed as art.

Great pictures, but you can't color both sides of the paper with colored pens without it showing through on the back side, so you have to choose which side to color and therefore get only 1/2 the pictures in the book. Disappointing that they didn't make the paper thick enough to be able to color both sides.

Got this for a friend who just started coloring. A+A+

This book has been a big hit with my Grade 4 class following our lectures on the Aztecs beliefs. They tried drawing from the different videos we watched, but for some it was an exercise in frustration, as the art is so different from our own. The illustrations presented in the coloring book gave them practice and made them more comfortable with the Aztec look.

I love this book. The pictures are interesting and fun. They can be removed, framed and hung as art work, that's how pretty they are. Not an average coloring book. Can make artist out of anyone if you take your time when coloring..

well made, i bought several from this publisher and they are well made and filled with interesting designs. Very nice

A good book for those doing stained glass work, woodcarving, drawing or lots of other projects. I will be glad to add it to my collection.
