## Customer Reviews

ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985. The company's titles cover all of Latin America from Rio Grande to Cape Horn and many destinations in the Caribbean.

I am trying to help the Head to Head School near Jacmel in Haiti which had no map of Haiti. I liked your map of Haiti so much I bought 5 more copies to give to the Head to Head School and also other nearby schools in that area. I like the captions or notes of places of special historical interest. I would love to have a map that indicated the land uses (present, and historic.) It would be GREAT to have a map which indicated where the NGO's working in Haiti are located and - in what way. Maps are a great aid to education in so many ways. Carol Dwyer, 245 Main St. Concord, MA 01742

Don't buy this map if you plan to use it for actual navigation in the DR. I love to use maps, so I feel very comfortable navigating with them. Roads are very complicated in the DR, and this map does not have enough detail to get you around. In fact, by following this map, we LOST an entire day of travel. It would look fine as a poster or as a general way to show someone the relative locations of cities and landmarks.

I rarely depend 100% on a GPS, especially in developing countries, so I chose this map as a backup and reference. The scale is appropriate and the level of detail useful, even more so on the DR side as their infrastructure is less of a challenge. If you need a paper map for Hispaniola, this is it.

I did not buy this map for a conventional reason, so my opinion may be irrelevant to you. I bought it to glue onto a journal cover. If anyone is looking to buy this map to make something similar, the material is difficult to stick to surfaces with adhesives. However, it is beautiful. I am not sure how it would be for legitimate use!

Great map! I love to know where I'm going when I go to Haiti on mission trips and this does the trick!

The map has a plastic finish on it that makes it very flexible and durable. I wish all maps were made like this.

I posted it on a bulletin board to publicize a Haiti schools campaign. It worked well except that the border between Haiti and the Dominican Republic is difficult to see.

Good map of Haiti but lack detail that I needed for areas outside PAP.
