Sleeping With Beauty

Synopsis

I ain't no prince. I'm a doctor with a very "special" patient. When Kate Monroe was brought into my hospital, I knew I had another shot. My sleeping beauty was in a coma. I kissed her ruby lips and awoke her. But she has amnesia and no recollection of her past. Fine by me. I'll f*ck her into happy-ever-after. As long as she doesn't remember who I am. This Doctor Amnesia Second Chance Romance is a full stand-alone novel, guaranteed to make you forget your own name. xx Tia Tia Siren. Spoil the bad girl in you.

Customer Reviews

This book is a MUST READ!!! You will feel like you are in a rollercoaster of emotions, love, hate, naughtiness, desire and love and desire again. This romance novel is the best I have read yet from Tia Siren! And one of my top 10 books of 2017. A definitely a must read! Liam work at a hospital as a doctor, he doesn't have much time for anything besides work. He thought that at this point of his live he would be married, but no he is still single and doesn't have time to go out or date. That make him think again of his ex girlfriend, Kate. She was and still is the love of his live, in a moment of stupidity he decided to end things. Not 24 hours had pass when he knew the terrible mistake he made, but it was too little too late for Kate. Now she is in the hospital unconscious after a car accident, maybe this is his second chance. Without thinking he kiss her and she opens her

eyes. Kate wakes up with amnesia, she doesn't even know her name, much less recognises Liam. There is something about him that attracts her, his smile, his confidence or maybe the way he is with her. As the days goes by they get to know each other and when she leaves they go out in a date. The date is all she always hope for, at least that what she thinks at the moment because she doesn't remember anything else. As the end of the date is close by, their desire is in a all high and they end up in her apartment. He made love to her, but when they finish his pager (the hospital pager) go off and he leaves abruptly. Liam had made the same mistake, put his work first and Kate second. He is afraid, he knows he is and that is all it is. Kate confronts him and gives him a second chance. Days goes by and all is good as new with their relationship. Kate finds some old journals that talked about a Liam but she thinks is all a coincidence... Weeks later Liam take her out for the weekend, he knows he have to tell her the thruth and he is going to do so this weekend. They spend the whole first day together in a cabin Ã Ã^Ã¶ were they love each other for hours. The next day something happens, Kate falls and hits her head and is unconscious for hours. Whe she wakes up she remembers everything. She can't understand Liam motives, is he really in love with her? Why didn't he say anything? He made a fool of her again!! Can she forgive him? Give him another chance? Will they conquer this mistake? Or will he need more chances? And is she able to trust him again? Or is all lost? Pd. The sex scenes are really steamy! Ã Ã^Ãœl voluntarily reviewed an Advance Reader Copy of this book

Liam and Kate star in this Second, Third, and Fourth chance Doctor/patient amnesia romance. Spoilers Ahead! At first I couldn't stand the on again off again, back and forth waffling of Kate's emotional commitment to Liam. Yes, Liam was a tool for stupidly breaking up with Kate who he acknowledges early on as being the love of his life. In spite of that, he spends the rest of the book trying to get her back, then trying to forget her when they break up (again and again). Kate is no better. She is hurt and trust is broken the first time they break up, then deceived the second time they break up, then "betrayed" the third time they break up. Her issues are more that she doesn't really trust Liam with her heart. (Liam isn't the most sensitive guy around, but he does try at the end) The author saved the story during the last 1/4 of the book. I was almost going to stop reading when Liam told his friend that he was still going to catch his flight even though Kate was in the hospital unconscious (with a head injury, again!) He decides to miss his flight to be at her bedside, and the story finally makes its way to a satisfying HEA (He finally sticks to the truth and is open and honest with her). I received an ARC for a voluntary and honest review.

I received this book with the understanding that I could leave a voluntary and honest review. In this book we meet Kate Monroe and Liam Morgan. Kate and Liam use to date but about a year earlier Liam just suddenly ended things. He though with everything he had going on at the hospital he believed this was what was best for both of them. Little did he know that he would never get over her and would regret his decision as soon as he had done it. Fate however is giving him a second chance when she ends up in his hospital with amnesia. He wonders though can he go through with lying to the woman he still loves and what will happen when her memory returns? Kate doesn't remember a thing when she wakes up in a hospital room. All she knows is her doctor makes her feel like she is safe whenever he is around. So when they start seeing each other there are certain things that make her think she knows him. However with her mind a little scrambled she can't quite be sure. What happens when her memory returns? Will she still feel save with Liam or will she feel like things will never be the same again? This book has many ups and downs that I want to tell you all about but don't want to ruin it for any other readers. I will say once you start this book you will not be able to put it down. I would highly recommend it to anyone and everyone.

Disappointing- let's start with the fact the book is titled *Arousing Her* and yet 's title is *Sleeping with Beauty*? This isn't Tia's best work. The story went back and forth over and over and it became tedious. I love long stories, but the extra pages did not help this story. It had potential but it just fell flat. There was too much filler and not enough dialogue and a lot of the emotions I didn't understand. Like why was Kate so angry at every argument even though Liam begged and apologized - didn't ring true. The poor girl has a head injury 3 times in the story! I wish the author had come up with some new twists instead of the same story told over and over.
