This was a great textbook to have and I really enjoyed the recipes in it

Ok

Excellent resource. As we travel at home and abroad, we consult with our kindle version to gain greater insight and a deeper appreciation for local food sources and dishes.

Purchased for a summer class, very informative and clearly written and outlined.

Good book. Glad I bought this version instead of the 4th. Barely used it for class. But it serves my purposes for a short summer course.

Interesting book, but I wouldn't read it again. Get the e-book rental if you can.

I received my package in no time. It was in perfect condition. There was a little wear on the edges but for the price I couldn't complain because the campus bookstore was asking double the price for a used edition.

This was required for my son's school work. He had to create a menu and this book was very handy.
