Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. Not an "easy" book. No cord diagrams. Just the letter for the cord. If you know cords, OK but if you need an easy fake book get Scott Houston's 2nd fake book. Not as many songs but lots of 60's ones and (!!!) the cords are shown on the top of the page before each song. This is so much easier... and you can quickly see how many/what cords you need for each song so you can slowly build up. I do not know nor do I have any financial or other interest in Scott Houston or his books.

excellent

This is a good attempt to simplify some great songs. However, some have been forced into the key of "C" and don't sound right no matter what you do. The regular fake book series doesn't do that and for the serious musician I can't recommend the easy series.
