Maybe this would be good for incoming secondary students who have a strong background of literacy in their first language and are highly motivated to build academic vocabulary, but this book pre-supposes skills that many true newcomers lack, particularly if their previous education has been interrupted or limited in some other way.

Amazing resource for beginner ELLS but unfortunately this copy was completely written in :(

The book is in great condition and the content is perfect for a beginner in English. I would recommend others to buy it.

Thanks the books arrived on time and just as described on the site. I needed a few more books for

my class and these were a great price.

Great book!!!

I work with beginning English Language Learners in middle school. This book is essential as the foundation of my language arts class. The book arrived on new condition. I recommend this resource highly.
