Customer Reviews

The map includes all pertinent details of the city, including of course, the streets, hospitals, shopping malls, businesses, museums and landmarks that you would otherwise not know about using a GPS system. If you have a GPS in your car, it's not much good if you're flying to different cities. These maps can be ordered ahead of time and just put them on your Kindle. I recommend this map to all travelers either for business, vacation or even if you live in the city.

Like the idea of a map on my mobile, but finding things and navigating on this one was too cumbersome. I returned it and acquired a paper map.
