Lovely silly coloring book. You'd think this is a gag joke or novelty product but it has the hallmarks of a good adult coloring book: good paper quality with only one image printed on each sheet of paper. The animals tend to have a lot of white space so you can color them in a more complicated fashion, while the backgrounds tend to be small so you can mindlessly color them in flat colors. I use colored pencils but I imagine markers would be fine, maybe put something behind the page to protect if you're using water-based instead of alcohol markers.

This was a gift and a good laugh. I think it's worth the money especially if the person it's for has a

sense of humor and enjoys unicorns, llamas or sloths. Haha

This coloring book is so funny. Yes its off color and my son is not allowed to flip through looking at the pictures.and its not just llamasButunicorns and sloths make their appearances too. Silly relaxing fun.

I got this for my friend and her expression when she opened it was priceless. We laughed so much. She loved it!
