Stretching from 90 miles southeast of Nassau almost all the way to Haiti, the chain of islands whose quiet lifestyle is celebrated here includes San Salvador, where Columbus first set foot in the New World. Although photographer Lloyd (Our Voices, Our Land) offers a few standard shots of fiery sunsets, brilliantly blue waters and other natural splendors, he concentrates on the Bahamas' people. Some 60 large-format pictures of farmers, fishermen, ministers and schoolchildren are paired with the subjects' comments on their islands' history, their personal recollections (one woman remembers getting up at 3 a.m. on Sundays to walk to church) and their feelings about change as young people move to urban areas. Although the interviews are hardly revelatory, they're preferable to Lloyd's patronizing comments about the ``warm-hearted and loving'' natives. Appropriately, the Bahamas' minister of tourism provided a foreword; with its feel-good photos and mushy, uncritical text, this reads like a travel brochure. Found this book on a coffee table at the Peace and Plenty hotel in Georgetown Exuma. Was able to order it from my iPhone and have it waiting upon our return. A wonderful book with photos from one of our favorite places on earth.

A coffee table size book with text and 65 4 color photos of the people and landscapes of the Out

Islands of The Bahamas. Text relates the geographical, cultural and historical evidence present in the photos and words of the people. This history is only being preserved in words and song of the people. Read about the 'Shark Lady', the Bush Medicine man and other friendly faces from exotic places like 'Crooked Island', 'Great Exuma' and 'Farmers Cay'.
