Just finished listening to "The Omega Factor - Series One" released by Big Finish Productions. I'm probably going to create a firestorm of controversy with the following observation - yet here goes: There were times when I was listening to "The Omega Factor - Series One" when I thought I was listening to a "Counter Measures" episode, and that lingering thought lingered with me throughout

all four episodes of "The Omega Factor - Series One." "The Omega Factor - Series One" picks up 30 years after the last episode of the original television series. Journalist Tom Crane left Department 7 and spent the last years of his life an embittered old man who cut all ties with his former friends and colleagues. The one short long-distance relationship in Crane's life produced a son - Adam, who after his father's death seeks out Anne Reynolds, who is now in charge of Department 7 and who is being forced into early retirement by a penny-pinching government because the department's work has produced no tangible results. PRUDE ALERT - there are a LOT of disturbing themes scattered throughout each episode and if you're bothered by these sort of things, don't say I didn't warn you. [No Barry MisterBgone Adaska, you may NOT borrow these CDs.. Why yes, it's pick on Minion #4 night...LOL.] Series One consists of: "From Beyond," "The Old Gods," "Legion," and "The Hollow Earth." In just about every episode, Adam gets "psychically raped" and temporary his body controlled by otherworldly demons. Like I said, not for the faint-hearted. listeners. Yet again, I couldn't help thinking that I was listening to "Counter Measures," which isn't a bad thing; but definitely not a good thing either. Recommended for fans of the original television series. I'm hoping that the second series scheduled for release late next year comes more into its own. Three-and-a-half Stars.
