Conscious Uncoupling: 5 Steps To Living Happily Even After

Synopsis

And Then They Lived Happilyâ We enter our romantic relationships with great love, hope, and excitement--we've found the 'one', so we plan and forge our futures together.â But sometimes, for many different reasons, relationships come undone; they don't work out. Commonly, we view this as a personal failure, rather than an opportunity. And instead of honoring what we once meant to each other, we hoard bitterness and anger, stewing in shame and resentment.â Sometimes even lashing out in destructive and hurtful ways, despite the fact that weâre good people at heart. That's natural: we're almost biologically primed to respond this way.â Yet there is another path to the end of a relationship--one filled with mutual respect, kindness, and deep caring.â Katherine Woodward Thomas, author of *Calling in "The One"*â and creator of the groundbreaking method, *Conscious Uncoupling*, provides the valuable skills and tools for you to travel this challenging terrain with these five thoughtful and thought-provoking steps: Step 1: Find Emotional Freedom Step 2: Reclaim Your Power and Your Life Step 3: Break the Pattern, Heal Your Heart Step 4: Become a Love Alchemist Step 5: Create Your Happy Even After Lifeâ This paradigm-shifting guide will steer you away from a bitter end and toward a new life thatâs empowered and flourishing.

When my 15-year relationship came to an end after he revealed a secret sex addiction under very unpleasant circumstances and then proceeded through a full year of more lies and manipulation. A year during which I was diagnosed with and treated for a brain tumor. I didn't think that it was possible to find a way to turn the end of our marriage into a positive experience for us or our three daughters. This book has helped me do that. Although there are days when I feel angry and resentful that it came to this, I know these are fewer as I do this work more fully. It would be so easy to emerge as the victim of this situation but I am finding practical ways to avoid that trap as I work through this book again over time and consider the implications of both my situation and my actions. Thank you for the help and support.

I've given this book to everyone I know who is going through a breakup! The "Conscious Uncoupling" process, as designed by Katherine Woodward Thomas, provides a method to peacefully resolve primary love relationships as they are ending. In modern life most people will have more than one important relationship in their lives, and these relationships can end for many reasons. We are living longer lives, and as we each evolve and change through each phase of our life, we may choose partners who will not be lifelong. Finding a way to move out of these relationships is important to all of us, and critical to those who have children. The 5-step Conscious Uncoupling process provides way to examine our own role in relationships, and become conscious of the patterns that may contribute to the lack of satisfaction. Moving through these transitions depends on our ability to take responsibility for our part in the breakup. This process gives a roadmap that frees people who are in a breakup from feeling like victims, and opens the possibility of moving forward into healthy loving relationships. The author uses the best of many disciplines to create this breakthrough method.
