If you would like a deeper perception of the Path with egoism and small talk filtered out then this is your book. Deep sincerity is the focus of these lectures. True Servanthood.

I really dig this book. Impressed by his words. Very good book! I suggest that everybody read this book. Read between the lines.

There aren't too many books I can name that have changed my life - but (Revelations of the Unseen) Futuh Al-Ghaib is one of them. The superb translation by Muhtar Holland brings out the true emotion of the Shaikh - whose words leave as much of a lasting impression in print as they must have had on the eager ears and souls of his followers during his lifetime. The real masterpiece of this and other works of Baz Publishers lies in their ability to effectively pass on a traditional and pure worldview to modern man .

This book is beyond description! Through short (but densely written) discourses, Shaikh (k.s) invites the reader to turn sincerely to God and submit to his will. Although the text is surely not an introductory one, I think everybody can learn something from this extraordinary book. Highly recommended without the slightest reservation.

A very good companion book for aspirant sufi students. A better one is "Secret of the Secrets" by the same Sufi Master. With a masterly juxtaposition of Quranic verses, quotes from the Hadith and day-to-day layman's questions, this book provides the guiding rules for the pathfinder.

I was not believing that a book could change my entire life and i have read this one. Now i know it is possible. No word is sufficient to describe.
