Music Theory: From Beginner To Expert - The Ultimate Step-By-Step Guide To Understanding And Learning Music Theory Effortlessly (Music Theory Mastery Book 1)

Synopsis

Discover The Beauty of Music Theory and Become a Better Musician Through The Power of Understanding!Have you ever wanted:To unlock the mysteries of notes, intervals, music scales, modes, keys, circle of fifths, chords and chord progressions and other important concepts in music?To understand where do chords and scales come from, what are all the different types that exist and how they're built?To master your rhythm and time skills and understand how to practice and play easily in any time signature?Wanted to know what's behind all the beautiful music and learn how you can (re)create it?But...Have you ever been put off by music theory or thought that it is too hard to learn?If you find yourself in any of this, then this book is what you need. It covers everything that anyone who plays (or wants to play) music and wishes to become a better musician should know. This is the most comprehensive evergreen book on music theory that you'll be able to find, and you will want to keep it forever.Not only that but this book is structured in a way that is very easy to follow and internalize all the concepts explained. You don't have to be a college degree music student in order to understand and use any of this - anyone can do it, even a total beginner!It also doesn't matter what instrument(s) you play - because music theory is universal - nor what is your level of knowledge or playing ability!This book will give you all the information necessary to become a true expert in music theory without frustration and feeling overwhelmed, and this in-turn will have innumerable benefits to your playing!Don't believe me? Just use the look inside feature by clicking on the book cover to get a sneak peak of what you'll learn inside...Get this book now to solve all your problems with music theory and become an expert in this field!Pick up your copy today by clicking on the BUY now button at the top of this page.P.S. For guitar players free bonus gift is included!

Customer Reviews

This little text packs a lot of information into several short explanations that can be easily understood by anyone with an interest in music. It is a great introduction to music theory and would be useful for raw beginners, as well as a concise summary for those with more advanced understanding.

I enjoyed the style the book was written in and the author's ability to break it down .I would recommend this book

Clearly written and adds to my understanding of how of music theory.

A thorough and understandable treatment.

Great and easy to understand.

The book started falling apart the 1st week smdh not buying for the seller again

I am a moderately developed beginner and I found this book perfect. It explained the concepts clearly and built concept upon concept, easy to read and understand! Don't be afraid if you can count and know a b c d e f g of the alphabet you can learn this!

its great for kids learning music.
