The Dark Secret: Wings Of Fire, Book 4

Synopsis

The Wings of Fire saga continues with a visit to the mysterious land of the NightWings, where Starflight must face a terrible choice - his home, or his friends? The dragonets of destiny are on their way to see the NightWings - and Starflight doesn't need his psychic powers to know it isn't going to go well. Starflight knows it's his duty as a NightWing to convince the other dragonets to choose Blister as queen. But he can't help feeling that there's something Morrowseer and the other NightWings aren't telling him, something that could put his friends in grave danger. While other NightWings have their powers to help them, Starflight has to rely on his brain - and with SkyWings chasing them and Queen Burn on their tails, that might not be enough.

Customer Reviews

This is a good book, I read it fairly quickly, I LOVE LOVE LOVE the Wings of Fire series. Honestly, though, this is not my favorite of Sutherland's works. I found it a bit....not boring, but not exactly my favorite book. It DOES clear up a lot stuff, and I REALLY love the 'poetic justice', as Sutherland puts it, of (SPOILER ALERT SPOILER ALERT) the "all powerful" NightWings bowing to the "useless" RainWings. That just goes to show that just cause you're a bit lazy and un-involved in certain things does not mean that you are weak. My favorite part is probably when the RainWings invade. Like, DUDE, that was awesome. I really admire Tui T. Sutherland for creating such an amazing series. It is well written, fun to read, and overall just awesome. This isn't my favorite of the series, yeah, but I still highly recommend it, especially if you want to continue the Wings of Fire series. Believe me, it only gets better from here! By B.K.

This is an intriguing series for young readers. It's creative, cohesive and very unique. I bought this set of books as a gift (I found the price was better buying each individually rather than as a set). The reader was so delighted that I even pre-ordered the newest book. Please click "helpful" if you liked this review. :)

There's a cliffhanger here...can Sunny, the smallest, defenceless dragonet have hope for a rescue? Can the two tribes get along together so they may both flourish? And what about Starflight? He is so injured! Could the Prophecy be fake, like Morrowseer says? I am so excited to find the answers, I'm onto the next book in the series!!

This book is has more gore then the other books and it definitely got darker. I mean seriously THE LAVA QUEEN LUNGED AT GLORY AND DIED AT HER FEET. It would have received 5 stars but the two flaws I found in this book was that until the end it was similar situation every time there was action. The book was also filled with to much romance.SPOILERS SPOILERS

bought for grandkids for xmas they love them

We pre-order these books each time they come out! My daughter loves them and reads them over and over. Her reading level has always been very advanced and this series offers a more challenging read, while keeping with a story-line that isn't too mature. Can't wait for the next one to be released!

Absolutely love these books. My 9 year old son kept talking about them so I started reading them too. We both enjoy them.

This book was excellent. The only problem I had with it was that the other friends did not show up for most of the book, only the end. Here you meet the fake dragonets of destiny, which all died I think except Fatespeaker the NightWing and Flame the SkyWing. Starflight's father also appears in this book. I loved the way all the night wing secrets were exposed to the reader in this book. One thing that I was wondering about was the guide in the front- why didn't they update it to say Queen

Glory of the RainWings instead of Queen Dazzling(who is not queen anymore), and there was a new SkyWing queen, so why not say that? Great book, and will continue to read the series.
