Customer Reviews

Gr 1 1/2 "Filled with easy-to-read texts and lots of photos, these books are the perfect way to introduce nonfiction at an early age. The large font and simpler vocabulary make Amelia Earhart an exciting and unintimidating choice for children just starting to read on their own. The pages are colorful and eye-catching, and small "in her own words" bubbles offer a true look into the life of this historical figure. Anne Frank is for more fluent readers. The vocabulary is more challenging, which suits the subject matter since it is definitely for older children. The volume is also packed with colorful photos that give a broad picture of where and when the child was living. Sections from her diary comprise the "in her own words" bubbles. Maps, time lines, and glossaries work well with the information provided to give readers a basic but fairly full overview of the subjects." Carol Hirsche,

This was a nice read for a school project. Easy enough to read and was enough information for k-3 to write an essay.

I purchased the Kindle edition of this books to read to our homeschool co-op, which is a group of 12 kids ranging in age from 4-9. The text is clearly written with all the pertinent facts about Amelia Earhart's life presented in a way that really held the kids' attention. There is also an abundance of photographs, which captivated them. I highly recommend this book as an introductory text about Amelia Earhart!
