Teach ESL to very beginning adults - this series works well with my individual style. Easy for classes and one on one. One of the few series I have used that explains very clearly and simply in a way that is easy to understand but adult oriented.

perfect item, perfect seller. Thank you.

I firmly believe that this book has been very beneficial for my students. Having the words in English and a space to write the word in their language helps them to understand the word better. It also helps them learn the use of the dictionary. What I liked about this book was, it not only comes in English but also to learn Spanish. I recommend this book because it helps the student to use words in conversation and sentences .

Very basic for what I needed. Other than that it is very well written for beginning English

This book is a good addition for another text. Helpful.

Not enough explanations given but good resource.

This book is exactly what my ESL adult students needed.

This book is perfect for the class, which is a beginning ESL class. They look forward to using it.
