Lippincott Williams & Wilkins' Clinical Medical Assisting

Synopsis

Designed to ensure that every medical assisting graduate can quickly trade a cap and gown for a set of scrubs, Lippincott Williams & Wilkinsâ™ Clinical Medical Assisting, 5e is more than just a textbookâ™s an engaging, dynamic suite of learning resources designed to train medical assisting students in the clinical skills theyâ™ll need in todayâ™s rapidly changing health care environment. The Fifth Edition takes real world focus to a new level by integrating meaningful use of an Electronic Medical Records system (EMR) directly into every chapter. This brand new feature includes chapter-opening case studies and related hands-on EMR activities that help students master content as they learn to use the software. Other exciting changes in the Fifth Edition include a full chapter on Emergency Preparedness, new in-book role playing activities, and an expanded array of online resources. Weâ™re pleased to continue to offer Harris CareTracker EMR free with adoption, along with case studies, skills videos, and animations.

Book Information

Paperback: 856 pages

Publisher: LWW; Fifth edition (February 10, 2016)

Language: English

ISBN-10: 1496302389

ISBN-13: 978-1496302380

Product Dimensions: 1.2 x 8 x 10.5 inches
