Customer Reviews

Wildman • Steve Brill has been leading public foraging tours in parks throughout the greater New York area since 1982. He works with schools, day camps, environmental organizations, museums, parks departments, nature centers, scouts, garden clubs, and educational farms in addition to having published numerous books on foraging.

Excellent guide!

This is a very thorough book for beginners and advanced foragers. The recipes are worth the price of this book, let alone the valuable information that comes with this book. This information is not exclusive for New Yorkers, we have this herbs throughout New England. Mr. Brill does have a sense of humor and does implement funnies throughout the book. The information is presented to entertain as well as teach. Would highly recommend this book. Good price for what you are getting.
