## **Customer Reviews**

This is a fairly standard US Govt. textbook. It is well organized and thorough and includes a reasonably diverse number of contributors. It is widely used by colleges and universities at the introductory level. It is a little left leaning, but confirms that most colleges and universities lean that way too. This may not be good for those with undeveloped political minds or those unacquainted with history, because you have little to compare the text with. However, for those with a knowledge base, who have a set of political opinions and they know why they hold them, this book can provide a basis of debate that may further refine your political beliefs.

Good school book

Great resource! Perfect for my AP Government class.

Great text book. School Gave assignment based in this book.

Great price and service

Great condition, awesome price. Thank you.

would recommend!

Perfect condition
