I bought two books to help get my son more comfortable with going #2 on the potty--he will only go #2 in a diaper. I purchased two books for this endeavor. I loved the first book (I Can't, I Won't, No Way!), as it seemed to relate to my son's exact issue. So, when I read this book, I was not terribly impressed--as an adult, it seems somewhat silly and irrelevant. Well, to my surprise, it really struck a chord with my 3-year old son. He asked me to read it again. I think he asked me to read it about four times that first night. Even more to my surprise, the very next morning, he went #2 in the potty, all by himself! He didn't ask for our help or anything. He just surprised us by being half-naked at wake-up time and there was a special surprise in the potty! He then asked me to read the book a few times that morning and again at bedtime that night. I'm not sure what it is about the book, maybe it's the

hero aspect, maybe it's the silly name--who knows, but I sure hope this trend sticks with my son.

Although my daughter took a liking to the story (it helped once), it needs a little more info on how the kid learned to go to the potty. It's just a generic book, but it's cute and my kids liked it.

My son's favorite book about pooping LOL He asks me to read it all the time. He did go poo on the potty few times after we read it. He does want to become a "super pooper", too and we are actively working on it :)It's a cute book!

I'm usually a little leary about self-published books on CreateSpace, but this one is a clear winner!!!! I got this and "Bloop Bloop goes the Poop" for my 3 yo boy who just wasn't getting the pooping on the potty thing. He has carried these 2 books around for the last 2 weeks, reads them to himself in the car, and wants to be a "Super Pooper" so he can get a party. While he still isn't there, we are getting some successes in getting the #2 into the potty, which is better than never before these books. This is a great little book that helps kids "get" that pooping in the potty is eventually expected of them. Thank you, thank you! for helping in our potty training adventure.

I ordered this book for my 3 year old son who is struggling with pooping on the potty. He really loves super heroes so I figured this would be a great story to help him get more comfortable with pooping on the potty. We received this book and he immediately got excited. So far we have read this book about 5 times a day! He just loves it! He still hasn't pooped on the potty ha! But I think it will help him over time. The story is short but still cute and has a great lesson about learning to use the potty.

I bought this book along with a couple others to help my 2 1/2 year old who was holding in his poop. Within two days of receiving my 'poop' books he has been pooping just fine! He loves this book and calls himself a 'super pooper'. We are not yet using the potty but he was holding even with a diaper on. It has been a 2 month battle and had tried everything including laxatives and suppositories. The books are what worked over everything else!

My little guy was pooing in the pull up and 2 weeks after reading this book every day and the even more fabulous Percy the Poop he did it. We got a cake that said he was a super pooper!!

It is disappointing to see many low ratings from adults regarding this book. Seems to me the book

was written for "children between 2.5-4 years old." Such comments about motivation and story arcs just embarrass the writers. As a parent, the book is easy to grasp for our three year old. Its simple enough for him to enjoy it before he is off doing something else. It makes one good point which may be the ONE point that works for that child. A criticism for the author; where is the dad? Why haven't the author and illustrator develop a similar book for a girl? Perhaps a story of dad being proud his daughter used the potty? Just a thought.
